If you're wondering why these leaderboards haven't been updated for a third straight week, here is the explanation, though they will eventually be back online for us:

Unfortunately, several changes to the Sc2pulse website currently prevent us from extracting players' MMRs, though we can still retrieve other data. Sc2pulse is the source from which we pull the raw player data for our server. Our technician, **Culonegro (Blackass in english)**, is working on the issue, and we expect our system to be fully operational again very soon. If anyone happens to be knowledgeable in this area and would like to help out, feel free to reach out to **Nox**, who can put you in touch with the team!

*These images of the player list you see every week come from a database we manage, with data automatically collected from Sc2pulse in real time. However, we need help from all iMKS members to enrich the database with additional information. If you scan or click this QR code, it will take you to an app where we ask for details such as your Sc2 account, WhatsApp, Discord, etc.*

*This information helps us keep all players properly registered with complete data. That way, it's easier for us to register players in competitions, and you'll be helping reduce smurfing, infiltrated player accounts, and other issues — since we're developing a "faker detection" system. You can also include your secondary accounts, whether they're on the team or not.*

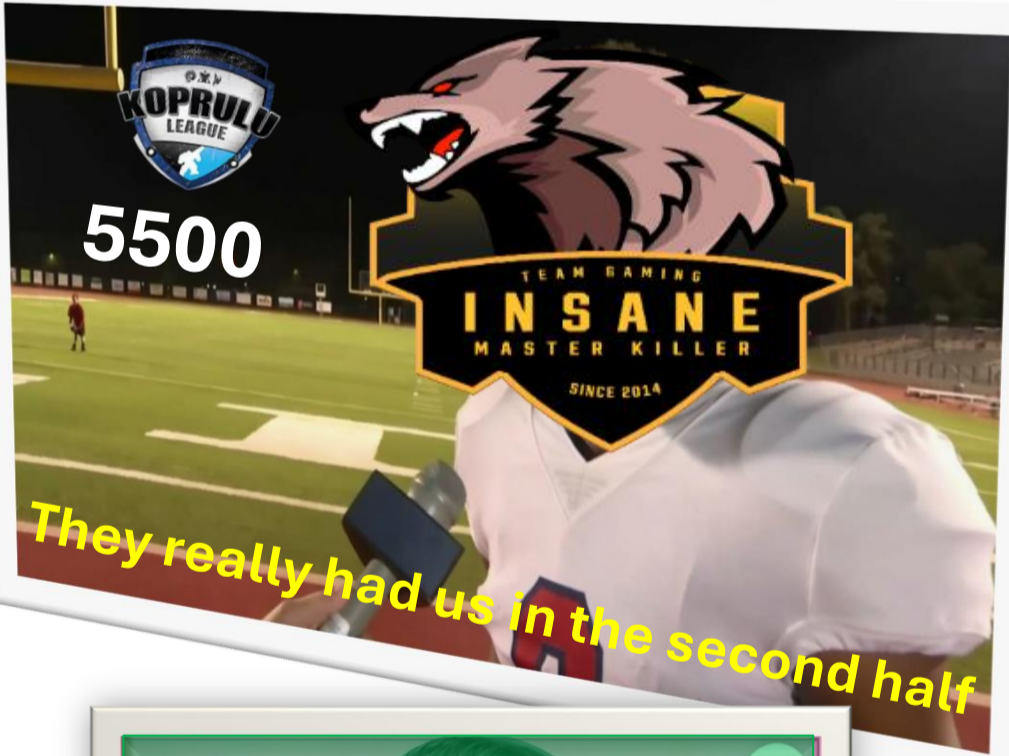

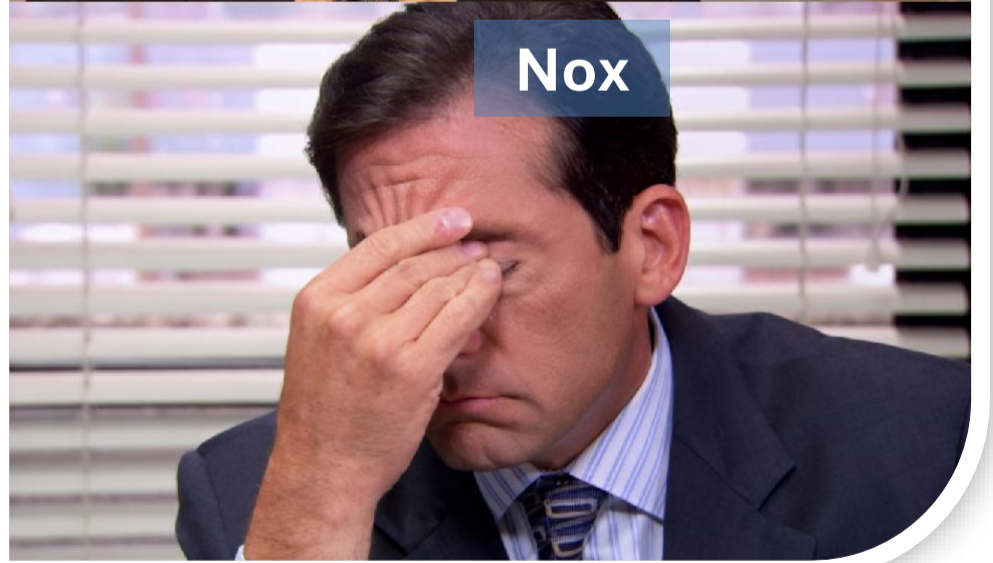

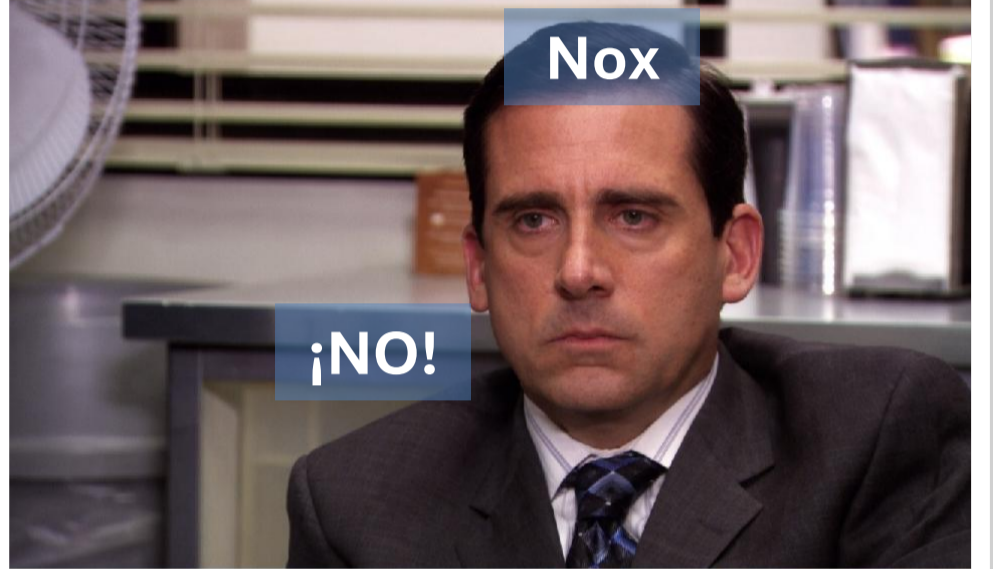

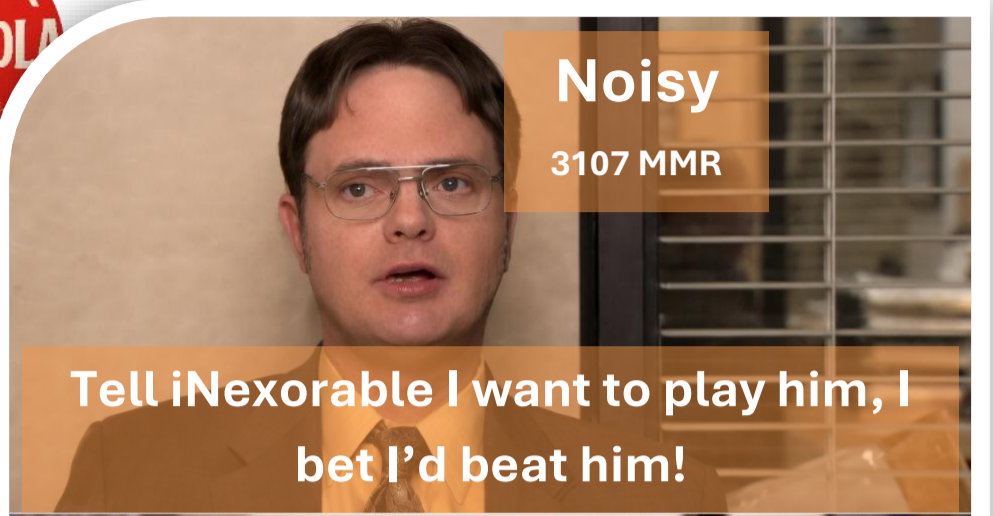

*Thanks to everyone, and especially to Culonegro for developing this system we've been working on for months. The next step will be having an AI replace Checo's casting xD.*

Wednesday, 1 April, 2026

Today we bring you a new long piece of news, but unlike the last one that filled this same section, this time it's a very positive one.

Since December 2025, six teams have been working together to create a new competition. The goal was to bring in dedicated teams with solid internal structures and the ambition to take things one step further. The competition in question, **GSC (Global StarCraft Cup)**, finally kicks off tomorrow.

When I say these teams are strong and genuinely care about their players, I don't say it lightly: **Eximius** is known for its well-structured cups; **DeVoid** consistently collaborates with the Amateur League while also running internal events; **HTT** is a great team and one of the most involved in several specific aspects of the GSC; **Maralesports** has also organized its own tournaments and has recently focused more on competing in the KTL; and **iMKS** restructured all of its internal tournaments in 2025 into a system that will be repeated annually, with a total value of \$500 or more.

The **GSC** was created with the idea of expanding each team's internal structure, unlocking up to 6 spots per team through internal competitions. This not only benefits the top players but also strengthens and expands incentives for internal participation. And when we say that the leaders of these teams (and note that we haven't mentioned all) care about their competitions and players, we truly mean it, each team has contributed \$50 to this GSC.

**Checo**, from **iMKS**, has basically been living off rice and bread for months to afford this contribution, but the investment makes sense: for just \$50, your six qualified players -after a full year of competition- gain access to a \$300 tournament. Whether they win or not is up to them, but the prize pool will be shared among the top 8.

Starting tomorrow, the competition will initially follow a GSL-style format (or Little Mac style). For those unfamiliar with it, players will be placed in groups of 4 and will play one BO3 per week, with matches broadcast via replay until reaching the final bracket, which will be played live. Teams will also accumulate points based on their players' results, meaning that by the end, not only will one player be crowned the best of GSC 2026, but one team will as well.

We will do our best to manage everything as smoothly as possible. If we make mistakes, please understand that this is a long-term annual project that is just getting started. We aim to grow and improve with each edition. Be patient, for now, everything looks very promising, and we will keep you updated weekly.

From here, a huge thank you to all participants, the teams, and especially the leaders who made this possible. Thank you very much!

*FH "Freedome House" initially collaborated with the GSC but was unable to meet the deadlines and will ultimately not participate in 2026.*

The Little Mac tournament is starting to pick up the pace. For now, our Bolivian player [iMKS] Havertz hasn't played his matches yet this week, but the absolute insane [iMKS] INexorable has advanced to the semifinals after defeating Magnath 3-1. Let's hope for more results next week—and that they're positive! ^^ GL!!!

While [iMKS] Yanakuntur and [iMKS] Kakaroto have direct entry to the iMKS Champions 2026 (Sub3500), the remaining players have the advantage of having already accumulated points.

Any future players who register will not have earned points in the spring qualifier, but they will still have five more tournaments to earn points, just like everyone else. We anticipate increased participation in future editions, but we don't know to what extent.

In any case, we remain committed to continuing to recruit players and provide this solid tournament structure.

Good luck next time!

This week in the **Spring Qualifier**, we've had a few surprises (*please view the full bracket on Challenge by clicking the flower; on Liquipedia, they only show matches starting from the Round of 16*).

**Razza** has dropped into the Losers' Bracket, becoming a formidable wall for everyone coming up from behind; meanwhile, **Aiur** and **CristoDorado** are also beginning to crowd the lower bracket with high-MMR players. Up in the top bracket, **Nox**, **zzzz**, and **Rider** will have to prove that they aren't there just by luck.

Good luck to everyone! and may anyone but Noisy win! GG!
